"The reception took place under the vine arbor. Each table was covered with textured grey linens, bowls of real fruit, and lush centerpieces in gold footed containers. Guests' place settings were adorned with hand-painted menus and a piece of quartz wrapped with gold wire."  
— *Event Planner, Erin Taylor*

# Canter

JUNE 22 - JULY 22

Your sensitive and gentle nature will organically create an all-encompassing, emotional vibe felt by every single guest at your wedding. Everything from the food you serve to your first dance song will have a specific meaning special to you and your beau. Similar to the hellebore flower, you emit a lovely yet delicate radiance. Placing the hellebores in a simple, rustic glass terrarium along with your escort cards will preserve its delicacy and leave your guests feeling tickled pink!
